THE STATE OF NEW HAMPSHIRE

The polls will be open from Ten A.M. to Seven P.M.

TO THE INHABITANTS OF THE TOWN OF RAYMOND IN THE COUNTY OF ROCKINGHAM IN SAID STATE, QUALIFIED TO VOTE IN TOWN AFFAIRS:

You are hereby notified to meet at the Raymond High School Gymnasium in said Raymond on Tuesday, the ninth day of March next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. Shall we adopt the provisions of N.H.R.S.A. 72:62 for a property tax exemption on real property equipped with a solar energy heating or cooling system which exemption shall

be in an amount equal to One Hundred Percent (100%) of market value of the system, as equalized?

3. To see if the town will vote to enact the amendments to the Zoning Ordinance as proposed by the Raymond Planning Board.

Given under our hands and seal, this eighth day of February, in the year of our Lord nineteen hundred and eighty-two.

James R. Turner
Gordon A. Cammett, Sr.
Ivan C. Reed
Selectmen of Raymond

RAYMOND POLICE DEPARTMENT

We, the members of your Police Department, are pleased to make the following report.

We have developed a reporting system that will allow us to keep more accurate records of incidents and activity of our force, and which will be easily adapted to a computer system if one becomes available in the future.

Some of the other innovations we are enacting include the regular scheduling of in-service training programs. Each of the full-time officers is scheduled to attend training through the Police Standards and Training School in Concord, and, we expect, will bring back new and progressive ideas for all of us to take advantage of. These schools will cover the specialty areas of Prosecution, Crime Scene Search, Officers' Refresher Training, and Officer Survival. We will expect each officer to incorporate the benefits of his learning to the in-service program.

During the past year, we have visited both the Junior/Senior High School and the Elementary School, and are attempting to get a schedule set up for regular Police/Student exchange, such as the Officer Bill Program. We have experimented with a modification of the program and find that it is very effective. We also are attempting to visit all businesses in town on a regular basis, to assist them in crime prevention and increase awareness. With the assistance of local publications, we are circulating information on some of the methods used to take advantage of our citizens, such as the passing of bad checks,

thefts, and malicious damage. Some of you may remember when we broadcasted road conditions over police and fire frequencies on the day of the ice storm; we will continue to do this whenever possible.

As Chief, I welcome comments and ideas that will assist us in keeping the community safe. With your assistance, we can develop programs that will help arrive at that end swiftly. With this "open door" concept, your Police Department will be able to better serve the entire community.

We extend our thanks and gratitude to all of the town employees and citizens that have assisted us in this past year. We also thank the Fire Department and Highway Department, with whom we have shared common hazards; the Dispatch personnel that support and assist in all of our efforts; the Sheriff's Department and State Police; Police Departments of neighboring towns; and the Administrative Assistant and Board of Selectmen for their cooperation and guidance. Each person in town can be proud to be citizens of Raymond. You have demonstrated on numerous occasions your thoughtfulness and willingness to share with the less fortunate. We look forward to serving you in the coming year and hope to enjoy your continued cooperation.

Respectfully Submitted,
Richard Dolan,
Chief of Police

RAYMOND POLICE DEPARTMENT INCIDENT REPORT

REPORT FROM THE RAYMOND DISPATCH CENTER

TOTAL CALLS LOGGED FOR 1982 36,271

POLICE DEPARTMENT	23,216
FIRE DEPARTMENT	1,543
AMBULANCE BUSINESS	774
IN-STATION CALLS	10,738

We would like to thank the Townspeople for our new console system. The equipment was ordered shortly after last Town Meeting and finally arrived on November 16th. After a very brief period of adjustment, dispatchers became familiar with the operation of the new console. With this new system, the dispatcher controls all radio channels, burglar and fire alarm panels, fire department plectron units and special function buttons from one unit, thus enabling the dispatch center to handle calls more efficiently.

We continue to dispatch for Candia, Fremont, Deerfield & Nottingham Fire Departments and Candia & Deerfield Rescue Squads. This year these towns will be charged on a per-capita basis. We believe this will work out well as the towns with rescue squads are also the ones most populated.

The Selectmen felt that better communications between Department Heads would be accomplished if the Chief Dispatcher worked the day shift when other department heads were also available. As of November 1st it was agreed that I would become Chief Dispatcher. I would like to thank Pauline

Gordon for her continued help and assistance in making the change-over as smooth as possible.

We would like to call your attention to the Police Department and Dispatch Center statistics and remind the Townspeople that the dispatcher's paperwork increases at the same rate as the Police Department incidents. The center handles an average of 100 transactions daily; assisting citizens with immediate problems and necessary services and general information. Our daily record of phone-calls shows a low of 12 and a high of 252, the high days usually indicate school cancellation. Our record of people coming into the station for assistance ranges from a low of 13 to a high of 71. These figures do not reflect Duty Officers coming and going, radio calls from Officers or out-going calls.

At this time we extend our sincere appreciation to the Raymond Police Department, Raymond Fire Department, Raymond Ambulance Association, Raymond Highway Department, Town Office personnel, and all other departments with whom we are associated — for another year of continued cooperation and assistance. Thank you to the people of Raymond for their on-going support and interest.

Respectfully submitted,

Marian E. Lovejoy,
Chief Dispatcher
Raymond Dispatch Center

RAYMOND FIRE DEPARTMENT ANNUAL REPORT FOR 1982

Inspections:	
Occupancy	57
Wood Stove	15
Oil Burner	5
Day Care	4
Foster Home	3

Calls:	
Automatic Alarms	4
Brush Fires	14
Car Fires	18
Chimney Fires	24
False Alarms	16
Gas Washdowns	4
House Fires	20
Jaws of Life	2
Miscellaneous	17
Mutual Aid	9
No School	3
Service Call	5
Mutual Aid Received	6

The value of property involved in fires this year was approximately \$558,000.00 with an estimated loss of \$139,000.00. Our fire loss is up this year over last year. Quite a few of these have been suspicious fires and we have some court cases coming up thanks to the efforts of the State Fire Marshal and our own investigative team, both of whom have put in many hours digging through the ruins of fires. Several other fires have had a late discovery which has allowed them to burn for several hours before being discovered. Some of these could have been reported earlier if smoke detectors had been present.

The equipment asked for at last year's Town Meeting has been purchased and put into service. This includes a deluge gun, foam

making equipment and Scott Air Paks. We had a service test run on Engine 2 which is 25 years old, and it will still pump capacity although it has to over-speed slightly to do this. We plan to have it tested some more before we decide whether to have it overhauled or not.

We have had an 8-hour course on handling hazardous materials accidents. Several of our men have attended weekend schools at Meadowood and Lakes Region Schools, taking such courses as Breathing Apparatus and Protective Clothing, Arson Investigation, Pumps and Pumping and Rural Firefighting & Water Supply. At the present time we are conducting a Certified Firefighters course of 96 hours duration. It will teach the Firemen the behavior of Fire, identification, use and maintenance of tools and equipment and how to be more effective putting out fires. It also stressed personal safety.

I want to sincerely thank all of our dedicated Firemen, of whom we now have 38, who have put in 2106 hours working on fires and maintaining equipment. Many of these hours come late at night and right in the middle of meals. My thanks also are extended to the understanding wives and families of these Firemen. I want to thank the Police Dept. for their help, the Ambulance Association for standing by at fires, and the Dispatchers for their excellent work.

Don't forget that burning permits are required for all outside burning of brush, grass and incinerators. Permits may be picked up at the Fire Station at no charge.

Respectfully Submitted,
Gordon Gould,
Fire Chief

**ANNUAL REPORT
RAYMOND AMBULANCE FUND ASSOCIATION**

JANUARY THRU DECEMBER 1982

The records of this last year show that 472 trips were made involving 496 patients. Seventy-four of the trips resulted from accidents. From the founding of the Association in March of 1959 thru the end of December 1982, our Ambulance Service has made a total of 9,629 trips of service. This year the ambulance traveled a total of 16,743 miles and there were 1,858 hours, 11½ minutes of donated manhours to make these many calls.

Towns Visited:

Raymond	276
Candia	80
Deerfield	56
Fremont	25
Nottingham	17
Epping	15

Hospitals Visited:

Exeter Hospital	243
Elliott Hospital	132
Veterans Hospital	21
Catholic Medical Center	8
Concord Hospital	8
Pease AFB Hospital	3
Wentworth Douglas	2
Frisbee Memorial	1
Portsmouth Hospital	1
Alexander Eastman	5
Lamprey River Clinic	1

Expenses for the year 1982 were as follows:
New Ambulance \$26,848.00, Gas and Oil \$2,802.94, Tires \$232.68, Maintenance \$931.24, Equipment \$495.21, and Miscellaneous \$2,908.47.

This last year we received our new ambulance and, except for a few problems in the beginning, we have been very pleased with it. The new type air suspension has proven to be a very comfortable ride for the attendants as well as our patients.

The hospitals in New Hampshire are updating

their radio communications and in order for the ambulance to be more compatible we were all advised of the recommendations of the State Emergency Medical Services. We have placed our order for a new General Electric mobile radio for our ambulance. This will give us more frequencies (or channels) on which to operate and improve our communications with other agencies including statewide coordination of all ambulances if needed. We have also ordered four (4) portable radios to replace the well-used ones we presently have. These also will have more channels.

Our records show that we responded to eight (8) less trips than we did last year. We would like to see the need for the trips diminished each year but, to be realistic, it is not likely to happen. This is why the members of the Association continue to take more schooling in order to keep up or increase their skill levels. There is a constant training program in order to achieve this.

We would like to thank the members of the Fire Department, Police Department and the Raymond Dispatch Center for their help throughout the year.

We would especially like to thank the spouses and family members who put up with us missing meals, appointments, sleep and disrupting theirs. Most of all we need their love and understanding when we return from a run that has not turned out the way we would wish them to be, and need to talk about it. If they were not there to listen and at times console, I wonder how many of us would be able to take the phone the next time it rang.

Thank you all for the continued help of donations which enable us to help you.

Respectfully submitted,
Richard E. Lahr, President
Raymond Ambulance Association

REPORT OF TOWN FOREST FIRE WARDENS AND STATE FOREST RANGER

Forest fire prevention, our business, your business, good business! This slogan has been the motto of the N.H. Division of Forests and Lands, Forest Fire Service since 1909 when the first forest fire laws were passed by the Legislature.

These laws set in place a cooperative forest fire protection program of States and local forest fire personnel that has, in the past 75 years, established New Hampshire as a leader in forest fire prevention and control. Our annual acreage loss to forest fires of one-half acre per fire is the best in the nation. This fire record has come about through the cooperative efforts of our state town forest fire protection program. The state provides detection of fires, training for local

forest fire wardens, low cost forest fire suppression equipment to local fire departments, and technical advice at the fire ground. Local governments provide the volunteer fire fighters who are appointed as wardens and deputy wardens and who respond quickly to suppress reported forest fires.

This program has resulted in a steady decline in annual acres lost to forest fires since 1910 when the average fire burned 33 acres, compared to the modern day loss of one-half acre per fire.

Only by the continued cooperation of the State/towns and our entire citizenry can this record be maintained.

1982 Statistics

	State	District	City/Town
No. of Fires	391	41	14
No. of Acres	161 ³ / ₄	30-1/3	5 ¹ / ₂

REPORT OF HIGHWAY AGENT

Langford Road Reconstruction Project:

Our Town Road Aid Project this past year was the re-construction of a section of Langford Road. Some twenty-one hundred feet was involved in the reconstruction.

Our goal in reconstruction programs are to alleviate as many road problems as possible.

The original tar road was built in the early 1940's.

The original intent back then by the State of New Hampshire Department of Public Works and Highways was to rebuild Langford Road from Griffin's Bridge on the East end to the Langford House on the West end and it was going to be used for Route 101. After some construction had got started on each of the ends of the road, the project thereafter got abandoned, leaving the sections on each end as the State's responsibilities for maintenance in the summer and the two towns' responsibilities in the winter.

The original tar surface on our project was about seventeen feet in width.

Much 'dozer work was done digging the rocks out from the roadbed. Underdrain and road drainage culverts were installed. The road right-of-way was relocated a number of feet to get a better road alignment. The end result is a 22-foot width pavement with shoulder and drainage ditches.

I would like to thank the people using Langford Road for their patience because of sometimes inconveniences they might have encountered during our construction phases.

I would like to thank Mr. and Mrs. Russell Ege and Mr. Forest Dearborn for their land which they made available to us to use as a place to dispose of a number of loads of fill. It saved the town hundreds of dollars had it had to be trucked off.

Our project this coming year will be another section of Langford Road. Very little town money is involved in this program. State Highway Subsidy and State-Town Matching Funds on our Town Road Aid is involved in the construction expense.

Tarring:

Our tarring budget this past year was spent on seal coating the following sections of road:

Old Fremont Road, Onway Lake Road, River Road, Lane Road, Critchett Road, Clover Court, Walnut Hill Road, Intersection Main Street and Route 101, Intersection Roy Street and Langford Road, Old Manchester Road. Hot top repairs at Long Hill Road and Old Manchester Road. Scribner Road mix and roll surface. Center Street mix and roll surface.

Other Roads:

Much work is needed on Blueberry Hill Road and Chettugie Road. Increasing amounts of traffic and the potential for housing development on these roads is existing. Most of the trees have been cut and removed from the road right-of-way. 'Dozer work removing stumps and widening for a suitable roadbed should be done before any more houses and/or driveways are installed. This would enable the town to do the road work necessary without interference from individual lot owners, thus being able to get a maximum road elevation and eliminating future road problems. This work could be done by using a part of our Highway Subsidy allotment each year.

Another section of road that will require immediate attention is Prescott Road from Old Route 101 to the railroad tracks on Prescott Road.

The State of New Hampshire Department of Public Works and Highways is about to go ahead with plans to put a bridge over the new Route 101. Included with the bridge is two eleven-foot

driving lanes with a five-foot walkway. Their construction will stop abruptly at the railroad crossing which will cause their two eleven-foot lanes and five-foot walkway into the old Prescott Road pavement of somewhat less than sixteen feet in width with very little chance to widen this section without getting into buying easements from some of the landowners along the way. There is about twelve hundred feet in distance on this section to Old Route 101.

With all the traffic created from the housing development and the amount of traffic generated by camper trailers to Pine Acres Campgrounds that will be using this section of road, there is definitely got to be some plan made to reconstruct a decent road to accommodate this amount of traffic safely.

My thoughts are at this point that the State should be responsible for this whole section of road right to old Route 101 and that the State not abandon the town with the responsibility. Cooperation and pressures from town officials to the right parties at the State Highway Department may help.

I wish to take this opportunity to thank the many citizens of Raymond for their cooperation and support that they have given me in the past.

Also, thanks to the men on the Highway Department (both full and part-time) for their response when called upon. Their cooperation has made the Highway Department run smoothly.

Respectfully submitted,
Lyman R. Hammond, Jr.
Highway Agent

REPORT OF THE BUILDING INSPECTOR January 1, 1982 to December 31, 1982

During 1982, 188 permits were issued with a total construction cost estimate of \$4,024,296.00 with total fees collected in the amount of \$2,458.00.

Of the permits issued were: 62 houses, 24 additions, 9 garage & carports, 15 porches, 12 roofs, 24 sheds & barns, 15 mobile homes, 10 replaced & relocated mobiles, 11 pools,

miscellaneous repairs, conversion concession stands, foundations, screen houses and offices.

Again my thanks to a wonderful group of supporters, Selectmen, Administrative Assistant, secretaries, treasurer, and especially the Town's people.

V. Raoul Rioux
Building Inspector

REPORT OF THE SOUTHERN NEW HAMPSHIRE PLANNING COMMISSION

The Southern New Hampshire Planning Commission is an association of municipalities voluntarily organized and operating under the provisions of New Hampshire Revised Statutes Annotated, Chapter 36:45-53. The Commission's statutory responsibility is to prepare a coordinated development plan for the region and to encourage its cooperative realization through the advisory process.

Directed by representatives of the City of Manchester and the Towns of Auburn, Bedford, Candia, Chester, Deerfield, Goffstown, Hooksett, Londonderry, New Boston, Raymond and Weare, the Commission's professional staff carries out the development of the technical elements of the plan.

The Commission's program is organized under regional, metropolitan transportation, and local technical assistance functions. Within these broad categories, individual tasks often vary on an annual basis according to the needs of the region and those of the Commission's participating communities.

In addition to reviewing detailed technical studies with appropriate area officials and agencies, staff reports on summaries of these and other timely planning items are covered in the Commission's quarterly newsletter "Project" which is widely distributed to approximately five hundred municipal officials and interested residents of the region.

Although several regional planning tasks were accomplished during the year, one stands out as a major achievement which can be directly attributed to the Commission's vigilance and its ability to act quickly and effectively on behalf of its member communities.

Due largely to the efforts of Chairman Ray F. Langer (Hooksett), Vice Chairman Donald M. Babin (Londonderry) and Commissioners Robert L. Wheeler (Goffstown) and John L. Sherburne (Deerfield), and the participation of the region's boards of selectmen, the State's Solid Waste Management Act was successfully amended by the Special Session of the General Court in May, 1982. On July 22, the Tri-county Solid Waste Management District was formally organized and the District by-laws were adopted by the ten participating towns in November. During 1983, the District will undertake the planning process which will ensure local

compliance with the requirements of the new Act.

Local assistance services provided during the year included:

- Meeting with representatives of the Planning Board, Board of Selectmen, Zoning Board of Adjustment and the Conservation Commission, at the Selectmen's request, to review the intent and interpretation of 1982 zoning ordinance amendments, and to provide instruction in the use of the Town of Raymond Flood Insurance Study materials in the enforcement of adopted National Flood Insurance Program requirements;
- Provided the Town's consulting engineer with municipal population data needed for the Raymond solid waste management project;
- Advised the Board of Selectmen of the availability of Outdoor Recreation and Conservation Project funds — of possible interest to the Recreation and Conservation Commissions;
- Informed the Board of Selectmen of the scheduled availability of funding under the U.S. Department of Housing and Urban Development's fiscal year of 1982 Community Development Block Grant program;
- Provided the members of the Planning Board, Zoning Board of Adjustment, Board of Selectmen and the Building Inspector with schedules of the Fall, 1982 Municipal Law Lecture Series;
- Notified the Board of Selectmen of the provisions of the State's new Solid Waste Management Act, and offered them an opportunity whereby the Town could achieve compliance.

Raymond's representatives on the Commission are:

Board of Commissioners:

Mr. Stephen Sloan
Mr. John Finan
Mrs. Harriet Cady, alternate

Executive Committee:

Mrs. Harriet Cady

REPORT OF THE DUDLEY-TUCKER LIBRARY

The Dudley-Tucker Library trustees received a Certificate of Appreciation on May 18, 1982 in conjunction with the twenty-fifth year of the New Hampshire Library Trustees Association. I would personally like to thank our trustees, Iber Gove, Ruth Hoffman, and Margaret Case, for their loyal support of the library. I also want to thank Isabelle Miglorino for working as my assistant for four and one-half years while I attended the University of New Hampshire.

Each week at 1 and 1:30 P.M. I have Story Time for preschoolers. I read to them and show films once a month. The Vilage Kindergarten and Head Start children also come in for reading and films occasionally. On Early-Release Wednesdays I show films for children through 6th grade. During the Summer Reading Program, I showed films and read to children in two different age groups, grades 1 to 3 and grades 4 to six.

During the summer I also tried having films and programs for adults on Monday nights. Though very few attended, the films and speaker were good. Bill Carney spoke and showed his movie of a trip he took down the Colorado River. Other films shown were: 99 Days to Survival, Portsmouth: an American Mosaic, Milltown, and Mast Making for the King.

On September 9, 1982, Professors Walter Tatara and William Neikam presented the slide show: Yesterday Again: New Hampshire and Energy Tomorrow. The program was sponsored by the National Endowment for the Humanities, Plymouth State College in cooperation with 20 public libraries in New Hampshire. As a part of the project the library received \$200 to spend on energy-related books and the money for a second program on the same subject. George Malette of Lisa Avenue, a Certified Energy Auditor, gave the second program on Energy

Conservation. Both programs were full of much useful information and it's too bad more people didn't attend.

Statistics of 1982

Circulation:	
Adult	11,644
Juvenile	6,971
Total	18,615
New Registered Patrons	293
Average Monthly Attendance	
(Number includes all activities as well as general library use.)	643
New Items Added to Collection	508

Following is a list of people I wish to thank for their contributions to the library of time, money, books, etc. Any errors should be brought to my attention.

John Peterson	and Trust Company

Respectfully submitted,

Janet D. Brown
Librarian

RECREATION COMMISSION ANNUAL REPORT

Last winter and this fall, the Recreation Department continued to offer its popular activities, one of the more popular being Raymond Aerobics, an offshoot of the YMCA Aerobics Program. The Raymond Aerobics is somewhat different in the fact that it is run entirely by volunteers. These people who come up through our Aerobics Program are trained by the YMCA and are regularly monitored by them. They are certified in CPR and attend workshops pertaining to Aerobics during the year.

Run by volunteers and very professional with enrollments of up to seventy, we must be doing something right. Some people have enrolled since the first class.

A sincere thank-you to the volunteers in this program for their efforts and hard work.

Many programs, co-ed volleyball, women's volleyball, young adults basketball, men's indoor soccer, children's indoor soccer, cannot run without volunteer support.

The Parks and Recreation Department has been responsible for the care and maintenance of the A.I. Welch field and adjoining utility field on Rte. 107, the two little league fields at the town sand pits, Onway Beach, two beaches at Governor's Lake, the picnic area on Langford Road, Lyman Park, and the Dudley Tucker Library lawn, three baseball fields at the high school, the soccer field, and tennis courts.

Many of the athletic facilities are mostly used with everyone working together to produce a fine system of athletic fields. The success of this type of system is due largely to the cooperative effort of many groups, the school, the town Parks and Recreation Department, and the RYAA (Raymond Youth Athletic Association).

The work done by the RYAA has helped to provide Raymond youth with some of the finest athletic fields in the area. Their efforts should be commended. We at the Parks and Recreation

Department have been happy providing the RYAA with the maintenance of their fields.

Last summer, there were over one hundred baseball games during the summer months, each requiring three man-hours of labor to keep the fields playable. We are very proud of the way our athletic fields look and work hard to keep them looking good.

The 1982 playground season was very successful with 165 children participating in the season's activities, which included weekly trips to Pawtuckaway, a trip on the Viking Sun, the Aquarium, Benson's Animal Farm, Canobie Lake, Ft. McClarey, and rollerskating.

The swimming program was very successful again with 32 children taking swimming lessons.

This fall, the Parks & Recreation Department, with the cooperation of the Lamprey River Elementary School, put out a brochure to advertise new programs for the winter months in an effort to offer a more well-rounded program. The brochure also contained programs for the Community Learning Group, the Dudley Tucker Library, and information on scouting in Raymond.

The brochures will be mailed on a quarterly basis throughout the year. Hopefully, we will gain support for more cultural and educational activities much needed in town.

The Outing Club for high school students has met with tremendous success, with hiking trips, rollerskating, skiing, Benson's Animal Farm, and movies being popular so far.

The Recreation Commission would like to express their sincere thanks to the many volunteers who helped make the 1982 season a success.

BUDGET COMMITTEE REPORT

While endeavoring to heed the call of the Budget Committee for restraint in spending both the town and school budgets are higher than we had hoped but consistent with the needs of town departments and the school system.

With sweepstakes funds having been eliminated for this year and with foundation aid and other State and Federal funds gradually being reduced or eliminated, it becomes increasingly difficult to provide the necessary services to the town and, at the same time, maintain a reasonable tax rate.

We are concerned not only with the day to day costs of town operation but with the serious financial burdens imposed by such major projects as waste disposal, for example. There is a need of a capital outlay for the reconstruction of Main and Epping Streets to prevent further deterioration of these heavily travelled roadways. And, too, there are other problem areas that need to be addressed as outlined in the recently completed Master Plan for the town.

It appears that we can no longer rely on Revenue Sharing funds for these major projects as we have for the past several years. It becomes increasingly apparent that we will have to become more self-sufficient in the operation of our town. And, as property taxes thereby increase, we may take some measure of comfort in the knowledge that we are not also paying State income tax and/or general sales taxes as are the also heavily burdened property taxpayers in the other 49 states.

So, as a Budget Committee, we will continue to watch spending and will recommend to the voters only those expenditures that we feel are absolutely necessary for the well being of our growing community.

To the Members of
the Board of Selectmen
Town of Raymond
Raymond, New Hampshire

We have examined the combined financial statements and the combining fund and account group financial statements of the Town of Raymond, New Hampshire as of and for the year ended December 31, 1982, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described in Note 1B, the combined financial statements referred to above do not include financial statements of the General Fixed Asset Group of Accounts which should be included to conform with generally accepted accounting principles.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation, as explained in the above paragraph, the combined financial statements and the combining fund and account group financial statements referred to above present fairly the financial position of the Town of Raymond, New Hampshire at December 31, 1982, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole and on the combining fund and account group financial statements. The accompanying financial information listed as supplemental schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the combined financial statements of the Town of Raymond, New Hampshire. The information has been subjected to the auditing procedures applied in the examination of the combined, combining fund and account group financial statements and, in our opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.

February 10, 1983

THE STATE OF NEW HAMPSHIRE

The polls will be open from 10:00 A.M. to 6:00 P.M.

To the Inhabitants of the Town of Raymond in the County of Rockingham in said state, qualified to vote in Town Affairs

You are hereby notified to meet at the Raymond High School Gymnasium in said Raymond on Tuesday, the eighth day of March, 1983, at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. Are you in favor of changing the term of the Town Clerk/Tax Collector from one year to three years, beginning with the term of the Town Clerk/Tax Collector to be elected at the next year's regular town meeting? (Inserted on petition of ten or more legal voters.)

3. Shall we adopt the provisions of RSA 72:43-f for the adjusted elderly exemption from property tax? These statutes provide for the following exemptions, based on assessed value, for qualified taxpayers: For a person 65 years of age up to 75 years of age, \$10,000; for a person 75 years of age up to 80 years, \$15,000; for a person 80 years of age or older, \$20,000. To qualify, the person must have been a New Hampshire resident for at least 5 years. In addition, the taxpayer must have a net income of less than \$10,000.00 or, if married, a combined net income of less than \$12,000.00, and own net assets of \$30,000 or less, excluding the value of the person's residence. (Inserted on petition of ten or more legal voters.)

Given under our hands and seal, this ninth day of February in the year of our Lord nineteen hundred and eighty-three.

Gordon A. Cammett, Sr.
Ivan C. Reed
James R. Turner
Selectmen of Raymond

A true copy of Warrant — Attest:

Gordon A. Cammett, Sr.
Ivan C. Reed
James R. Turner
Selectmen of Raymond

THE STATE OF NEW HAMPSHIRE

The Polls will Open at Ten A.M.

To the Inhabitants of the Town of Raymond in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Raymond High School Gymnasium in said Raymond on Saturday, the twelfth day of March, 1983, at ten o'clock in the forenoon, to act upon the following subjects:

1. To raise such sums of money as may be necessary to defray town charges for the year ensuing and make appropriations of same.

2. To see if the town will vote to authorize the Selectmen to make applications for and to receive and spend in the name of the town such advances, grants-in-aid, or other funds for town purposes as may now or hereafter be forthcoming from Federal, State, local, or private agencies as would be of benefit to the town.

3. To see if the town will vote to authorize the Selectmen to borrow money in anticipation of taxes.

4. To see if the town will vote to authorize the Selectmen to transfer tax liens and convey property acquired by the town by tax collector's deed by public auction (or advertised sealed bid) or in such other manner as determined by the Selectmen as justice may require.

5. To see if the town will vote to rescind its prior vote for the appointment of the Chief of Police at its annual town meeting of March 1981 and to provide at the time of the annual town meeting in March of 1984 and thereafter, that the Chief of Police shall be elected by the voters unless removed for cause by the Selectmen. (Inserted on petition of ten or more registered voters.)

6. To see if the town will vote to appropriate the sum of \$30,000.00 (Thirty Thousand Dollars) for the financing of a reappraisal of all taxable properties in the town, and to authorize the withdrawal of this sum for this purpose from the Federal Revenue Sharing Fund, and to name

27. To see if the town will vote to adopt the following By-law governing Licensing and Regulations for Amusement Devices and Centers:

1. Definition of terms. As used in this regulation, unless the context otherwise indicates.

A. The term "amusement device" shall mean any machine which, upon the insertion of a coin, slug, token, plate, or disc, may be operated by the public generally for use as a game, entertainment, or amusement, whether or not registering a score. It shall include such devices as electronic games, pin ball machines, skill ball, mechanical grab machines, and all games, operations, or transactions similar thereto under whatever names they may be indicated. The term does not include vending machines in which are not incorporated gaming or amusement features, nor does the term include any coin-operated musical devices, rides, or pool tables.

B. The terms "person," "firm," "corporation," or "association," as used herein shall include the following: any person, firm, corporation or association which owns any amusement device; the person, firm, corporation or association in whose place of business any amusement device is placed for use by the public; and the person, firm, corporation, or association having control over an amusement device provided, however, that the payment of the license fee by any person, firm, corporation, or association enumerated herein shall be deemed in compliance with Section 5.

C. The term "amusement center" shall mean any premises having thereon available for use by the general public three (3) or more amusement devices.

2. Gambling Devices Not Permitted. Nothing in this By-law shall in any way be construed to authorize, license, or permit any gambling or gambling devices not permitted by State law.

3. License Required. No person, firm, corporation or association shall display for public patronage, or keep for operation, any amusement device as defined in Section 1, without first having obtained a proper license/permit from the Town of Raymond. All licenses/permits under this article shall expire on the thirtieth of July next following their

issuance and may be renewed only after compliance with the procedures established by this article for the issuance of the original license/permit.

4. Amusement Center Licenses. Applicants having available for use by the general public at one location three (3) or more amusement devices, shall comply with all requirements of the Town of Raymond Ordinances.

A. Management Plan. The application for an Amusement Center License shall include, in addition to other required information, a management plan which at a minimum will set forth the following:

- 1) The actual hours of operation,
- 2) The minimum number of employees on duty at any time,
- 3) Parking facilities for patrons,
- 4) The maximum number of persons permitted on the premises, which number shall not exceed the limits established by the Fire Prevention Code.
- 5) A plan designed to avoid nuisances and insure compliance with Town of Raymond Ordinances,
- 6) Rules governing the presence of minors unaccompanied by an adult,
- 7) Rules and regulations to be posted on the premises governing the operations of the center and conduct of its patrons. These rules should include but not be limited to such matters as dress code, consumption or possession of alcoholic beverages or controlled drugs, loitering, presence of minors during school or evening hours, and maximum occupancy.

B. Notice, Hearing, Appeal. The Board of Selectmen shall not issue a license to an amusement center until ten (10) days after it has published notice of the application for a license in a newspaper of general circulation in the town. During this ten-day period, the Board of Selectmen shall accept written comment from the public concerning the application. At the end of the ten-day period, the Board of Selectmen shall grant or deny the license and set the maximum hours of operation of the Amusement Center. Any person aggrieved by the decision of the Board of Selectmen to license any amusement center may within five (5) days from

the date of the decision to license, request the Board of Selectmen to hold a public hearing on the application and to reconsider their decision. A renewal of an amusement center license shall be subject to the conditions and proceedings of this section.

C. Suspension or Revocation. A license issued under the provisions of this article to an Amusement Center may be suspended or revoked for violation of any provision of the Management Plan filed with the Board of Selectmen or of any condition imposed by the Zoning Board of Adjustment in granting the required special exception.

5. Amusement Device. Applicants having available for use by the general public at one location less than three (3) amusement devices, shall obtain a permit pursuant to the provisions of this article.

6. Application. The application for an Amusement Center and/or an Amusement Device license shall, in addition to such information as may be required by the Board of Selectmen, contain the following information:

A. The name and address of the applicant and, if a firm, corporation, partnership, or association, the principal officers thereof and their addresses,

B. The address of the premises where the licensed device or devices are to be operated, together with the character of the business as carried on at that place,

C. A general description of the type of device or devices to be licensed,

D. The name and address of the owner of the device or devices, if other than the applicant.

No license shall be issued to any applicant unless he shall be over eighteen (18) years of age.

7. License Fees. Every amusement center applicant, before being granted a license, shall pay a license fee of one hundred dollars (\$100.00) per year plus a fee per machine (see paragraph 11). All license fees shall be payable annually in advance, provided that where application is made after the expiration of any portion of any license year, a license may be issued for the remainder thereof upon payment of a proportionate part of the annual fee. In no case shall any portion of the license fee be repaid to the licensee.

8. Transfer of License. A license shall not be transferable from person to person nor from place to place, and shall be useable only at the place and by the person designated on the license.

9. Conditions and Restrictions. All licenses shall be subject to such conditions and restrictions as the Board of Selectmen deems it proper to impose in keeping with the intent of this By-law.

10. Time. Every Amusement Center shall be permitted to stay open for the reception of patrons from 10:00 o'clock in the morning until 11:00 o'clock in the evening, except Sundays, which will be from 12:00 noon until 11:00 P.M.

11. Annual Fee Per Machine. (See Paragraphs 5 and 7).

Number of machines	Fee
1 to 2	\$ 50.00 each per year
3 to 10	\$250.00 per year (flat)
11 to 20	\$500.00 per year (flat)
21 to 30	\$750.00 per year (flat)

11. Penalty Clause. Any person who violates any provision of this By-law shall be guilty of a violation and each day any such violation shall continue shall constitute a separate offense. In addition to the penalty herein-above described, the Board of Selectmen is authorized to commence action in the Rockingham County Superior Court to seek injunctive relief in order to enforce the provisions of this By-law.

13. Severability. The invalidity of any provision or section of this By-law shall not affect the validity of any other provision or section of this By-law.

This By-law will take effect upon its passage by the Annual Town Meeting of the Town of Raymond.

Given under our hands and seal this ninth day of February in the year of our Lord nineteen hundred and eighty-three.

Gordon A. Cammett
Ivan C. Reed

TOWN OF RAYMOND

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies employed in the preparation of these financial statements.

A. Fund Accounting

The accounts of the Town are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped by type in the financial statements. The following fund types and account groups are used by the Town.

GOVERNMENTAL FUNDS

General Fund - The General Fund is the general operating fund of the Town. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges, and the capital improvement costs that are not paid through other funds.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than expendable trust or major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. Included in this fund type are Federal Revenue Sharing, Water Department, Library, Recreation Activities, Rental Properties, Cemetery Lot Sales, and Recreation Donations funds.

Capital Projects Funds - Transactions related to resources obtained and used for the acquisition, construction or improvement of capital facilities are accounted for in Capital Projects Funds. Such resources are derived principally from proceeds of long-term notes or bonds and from federal and state grants.

FIDUCIARY FUNDS

Trust and Agency Funds - Trust and Agency Funds are used to account for the assets held in trust or as an agent by the Town for others.

TOWN OF RAYMOND

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

B. Account Groups (Fixed Assets and Long-Term Liabilities)

All governmental funds and expendable trust funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of "available spendable resources". Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of available spendable resources during a period.

General fixed assets have been acquired for general governmental purposes and have been recorded as expenditures in the fund making the expenditure. These expenditures are required to be capitalized at historical cost in a General Fixed Asset Group of Accounts for accountability purposes. In accordance with the practices followed by other municipal entities in the State, the Town does not maintain a record of its general fixed assets and accordingly, a statement of general fixed assets, required by generally accepted accounting principles, is not included in this financial report.

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group. This account group is not a fund. It is concerned only with the measurement of financial position and not results of operations. Since they do not affect net current assets, such long-term liabilities are not recognized as governmental fund type liabilities. They are instead reported as liabilities in the General Long-Term Debt Account Group.

C. Basis of Accounting

The accounts of the General, Special Revenue, Capital Projects, and Expendable Trust Funds are maintained and reported on the modified accrual basis of accounting. Under the modified accrual basis of accounting, sources of financial resources and assets are recognized when measurable and available to finance operations during the year. Uses of financial resources and liabilities are recognized when obligations are incurred from receipt of goods and services, when assessments are made by the State or in the case of judgments and claims against the Town, when there is a probability that such judgments and claims will result in liabilities, the amounts of which can be reasonably estimated. Exceptions to this general rule include: 1) accumulated unpaid vacation and sick pay, and 2) principal and interest on general long-term debt which is recognized when due. All Nonexpendable Trust and Agency funds are accounted for using the accrual basis of accounting.

TOWN OF RAYMOND

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

D. Budgetary Accounting

General governmental revenues and expenditures accounted for in budgetary funds are controlled by a formal integrated budgetary accounting system in accordance with various legal requirements which govern the Town's operations. However, contrary to generally accepted accounting principles, it has not been the practice of the Town to adopt an annual budget for all Special Revenue funds. The Town budget represents departmental appropriations as authorized by annual or special town meetings. The Selectmen may transfer funds between operating categories as they deem necessary. State Statutes require balanced budgets but provide for the use of beginning fund balance to achieve that end. In 1982, the beginning fund balance was applied as follows:

Unreserved fund balance used to reduce tax rate	\$135,000
Beginning fund balance reserved for encumbrances	<u>49,547</u>
Total Use of Beginning Fund Balance	<u>\$184,547</u>

E. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and continuing appropriations (certain projects and specific items not fully expended at year-end) are recognized, is employed in the governmental funds. Encumbrances are not the equivalent of expenditures; and are therefore reported as part of the fund balance at December 31 and are carried forward to supplement appropriations of the subsequent year. The reserve for encumbrances at December 31 consists of the following:

<u>General Fund</u>	
Langford Road Project	\$ 47,076
Highway Subsidy	7,249
Lane Road Project	<u>2,042</u>

TOWN OF RAYMOND

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

F. Investments

Investments in all instances are stated at cost, or in the case of donated investments, at market value at the time of bequest or receipt.

G. Inventories

Inventory in the General and Special Revenue funds consists of expendable supplies held for consumption. The cost thereof has been recorded as an expenditure at the time individual inventory items were purchased.

H. Accumulated Unpaid Vacation and Sick Pay

Accumulated unpaid vacation and sick pay is not accrued in the governmental funds using the modified accrual basis of accounting. Employees may accumulate sixty days sick leave at a rate of one day per month. Vacation is granted in varying amounts based on length of service. Vacation pay accumulation does not exceed a normal year's allowance. Accumulated sick leave is immaterial.

I. Taxes Collected For Others

The property taxes collected by the Town include taxes levied for the Raymond School District and Rockingham County which are remitted to these governmental units as required by law. The ultimate responsibility for the collection of taxes rests with the Town. The payments are recorded in the property tax fund as intergovernmental transfers.

J. Property Taxes

Annually, the Town establishes and raises through taxation an amount for abatements and refunds of property and resident taxes, known as overlay. All abatements, discounts and refunds are charged to this account. The amount raised in 1982 was \$69,297 and expenditures amounted to \$49,287.

As prescribed by law, the Tax Collector sells at tax sale all uncollected property taxes in the following year after taxes are due, where applicable. The purchaser at tax sale has a priority tax lien on these properties and accrues interest at 18% per annum. Delinquent taxpayers must redeem property from tax sale purchasers.

Property is sold to the party who will accept a lien for the least undivided interest in the property for payment of taxes and related costs due. If property is not redeemed within the two year redemption period, the property is tax-deeded to the lien holder.

TOWN OF RAYMOND

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

K. Interfund Transactions

During the course of normal operations, the Town has numerous transactions between funds, including expenditures and transfers of resources to provide services and fund capital outlay. The accompanying governmental and fiduciary fund financial statements reflect such transactions as transfers.

L. Interfund Receivable and Payable Balances

Individual fund interfund receivable and payable balances at December 31, 1982, were as follows:

<u>Fund</u>	<u>Interfund Receivables</u>	<u>Interfund Payables</u>
General Fund	\$	\$1,030,673
<u>Special Revenue Funds</u>		
Library Fund	336	
<u>Trust and Agency Funds</u>		
Expendable Trust Funds	1,639	
Property Tax Fund	<u>1,028,698</u>	
<u>Totals</u>	<u>\$1,030,673</u>	<u>\$1,030,673</u>

M. Intergovernmental Receivables

The general fund financial statements reflect a receivable of \$32,120 from the State of New Hampshire, representing the balance of the Business Profits Tax distribution due December 31, 1982. In a letter dated December 15, 1982 to all governmental entities, the State Treasurer advised that this balance would be processed for payment as soon as funds become available. The intergovernmental receivables at December 31, 1982 consist of the following:

<u>General Fund</u>	
State of New Hampshire	\$32,120
<u>Special Revenue Fund</u>	
Federal Revenue Sharing	\$11,467

TOWN OF RAYMOND

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

NOTE 2 - CHANGES IN LONG-TERM DEBT

The following is a summary of long-term debt transactions of the Town for the fiscal year ended December 31, 1982.

	<u>General Obligation Debt</u>
Long-term Debt	
Payable January 1, 1982	\$281,200
<u>New Debt Incurred</u>	
Water Bond	74,000
Long-term Debt Retired	(<u>15,200</u>)
Long-term Debt	
Payable December 31, 1982	<u>\$340,000</u>

Long-term debt payable at December 31, 1982, is comprised of the following individual issues:

\$276,000 Water Department Bonds due in annual installments of \$10,000 on October 9, 1982 through 1996, and \$9,000 on October 9, 1997 through 2010; interest at 5%	\$266,000
\$74,000 Water Department Bonds due in annual installments of \$2,500 on October 25, 1983 through 1993, and \$2,450 on October 25, 1994 through 2011; interest at 5%	<u>74,000</u>
<u>Total</u>	<u>\$340,000</u>

The annual requirements to amortize all debt outstanding as of December 31, 1982, including interest payments, are as follows:

TOWN OF RAYMOND

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

Annual Requirements To Amortize Long-Term Debt

<u>Year Ending</u> <u>December 31</u>	<u>General Obligation Debt</u>		
	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
1983	\$ 12,500	\$ 17,000	\$ 29,500
1984	12,500	16,375	28,875
1985	12,500	15,750	28,250
1986	12,500	15,125	27,625
1987	12,500	14,500	27,000
1988-2011	<u>277,500</u>	<u>166,178</u>	<u>443,678</u>
<u>Total</u>	<u>\$340,000</u>	<u>\$244,928</u>	<u>\$584,928</u>

All debt is general obligation debt of the Town, which is backed by its full faith and credit.

NOTE 3 - CAPITAL RESERVE FUNDS

The capital reserve fund balances held by the Trustees of Trust Funds at December 31, 1982, are as follows:

<u>Purpose</u>	<u>Amount</u>
Highway Department	\$27,776
Fire Department	30,522
School District	<u>16,203</u>
<u>Total</u>	<u>\$74,501</u>

NOTE 4 - PENSION PLAN

The Town participates in the State of New Hampshire Retirement System. The Town's contribution for normal cost of the plan is based upon an actuarial valuation of the entire State plan. Since the actuarial valuation is performed on the entire State plan the amount, if any, of the excess of vested benefits over pension fund assets is not available. The Town does not have an accrued liability for past service costs. Pension costs amounted to \$12,346 in 1982.

NOTE 5 - TRUST FUNDS

The principal amount of all nonexpendable trust funds is restricted either by law or by terms of individual bequests in that only income earned may be expended. The Town's nonexpendable and expendable trust funds at December 31, 1982, are detailed as follows:

TOWN OF RAYMOND

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

<u>Purpose</u>	<u>Nonexpendable</u>	<u>Expendable</u>
Cemetery Funds	\$50,813	\$17,297
Library Funds	4,394	414
Scholarship Funds		
Women's Civic Club	5,597	224
Bertram Thomas		1,405
Peter Stevens	1,226	95
Norma Shepard Koos	5,000	170
School District Funds		16,478
Industrial Development Funds		3,067
	<u>67,030</u>	<u>39,150</u>
<u>In Custody of Town Treasurer</u>		
Harry Heath Fund		1,411
Walter Lyman Reward Fund		228
		<u>1,639</u>
<u>Total</u>	<u>\$67,030</u>	<u>\$40,789</u>

NOTE 6 - CHANGES IN FINANCIAL REPORTING

Certain changes were made to correct and restate the financial statements at January 1, 1982. The following corrections and restatements of beginning fund equities were made to give retroactive effect to those changes.

<u>Description</u>	<u>General Fund</u>	<u>Special Revenue Funds</u>	<u>Proprietary Fund</u>
To adjust for reduction in accounts payable	\$ 626	\$	\$
To adjust for increase in taxes receivable	2,504		
To adjust for increase in intergovernmental receivable		13,406	
To transfer Water Department from Proprietary to Special Revenue Funds		598,719	(598,719)

TOWN OF RAYMOND

NOTES TO THE FINANCIAL STATEMENTS

December 31, 1982

<u>Description</u>	<u>General Fund</u>	<u>Special Revenue Funds</u>	<u>Proprietary Fund</u>
To remove Water Department fixed assets not recorded	\$	(\$541,272)	\$
To adjust for addition of recreation donations not recorded	<u> </u>	<u>1,822</u>	<u> </u>
Total Adjustments	3,130	72,675	(598,719)
<u>Fund Equity -</u>			
<u>As Previously Reported</u>	<u>234,813</u>	<u>127,643</u>	<u>598,719</u>
<u>Fund Equity - As Restated</u>	<u>\$237,943</u>	<u>\$200,318</u>	<u>\$ -0-</u>

RAYMOND SCHOOL DISTRICT MEETING

March 6, 1982

The Raymond School District Meeting was called to order at 7:23 P.M. in the Raymond Consolidated School Gymnasium by the Moderator, Frank Case.

Reverend Edgar Chandler offered a prayer.

The Pledge of Allegiance was recited by all.

The Moderator stated that he would be conducting the meeting under simplified Rules of Order.

Method of voting: Articles that were not voted upon by secret ballot were voted upon by raising pink colored voting cards with the letter "D" printed on them; unless declared otherwise by the Moderator. School District voters received the cards from the Ballot Clerks after stating their names to the Ballot Clerk and being checked off on the Check List.

BALLOT CLERKS:

Marilyn Bagley	Gloria Grace
Margaret Case	Joan P. King
Assunta Ege	Elizabeth A. Robinson
Pauline Gordon	Rita M. Curtis

The Moderator introduced the Budget Committee, Superintendent's Office Officials and the principals of the elementary and high schools.

Mrs. Marvel questioned that in view of the voluminous gathering, how would you determine on voice vote who voters were and the outcome of the vote.

The Moderator stated that voting cards were being used for the voting and reminded voters to go through the checklist and receive their voting card.

Mr. Clifford questioned that one member of the Budget Committee was missing, and was that member ill or not present for some reason. Mrs. Cady stated she chose not to sit with the Budget Committee.

Article 1:

Motion: By Susan Newton, duly seconded by Hughin Holt that Article Number 1 be indefinitely postponed.

Voted by a show of cards. Voted in the AFFIRMATIVE.

Article 2:

Motion: By Sandra Ellis, duly seconded by Hughin Holt that the nomination of Helen Meg Finan for a two-year term, who has consented to serve as a member of the Raymond Staff

Development Committee for the ensuing years.

Voted by a show of cards. Voted in the AFFIRMATIVE.

Article 3:

Motion: By Kathleen Hoelzel, duly seconded by Hughin Holt, that the report of the Auditors for the Raymond School District, as set forth in the annual report of the school district, be accepted and placed on file.

Voted by a show of cards. Voted in the AFFIRMATIVE.

The Moderator stated that there were some typographical errors to teachers' salaries in the Town Report. The errors were both increases and decreases. Typed corrections were passed out by the principals, Joseph Korowski and Lucille DiCicco.

Article 4:

Motion: By Maurice Demeritt, duly seconded by Kathleen Hoelzel, that the school district accept and expend up to \$20,000 for the federal programs such as Career Education, Gifted and Talented, Title IV and other miscellaneous programs; with the amounts set forth for each program estimated so that the amounts for any one program may be overexpended so long as the total amounts for all the programs does not exceed \$20,000.

Voted by a show of cards. Voted in the AFFIRMATIVE.

Article 5:

Motion: By Maurice Demeritt, duly seconded by Hughin Holt, that the school district authorize the school board to apply for, accept and expend, without further action by the school district meeting, money from the state, federal or other governmental unit or a private source which becomes available during the 1982-83 school fiscal year provided that such expenditure be made for purposes for which a school district may appropriate money and that such expenditure not require the expenditure of other school district funds. Further, that the school board hold a public hearing prior to accepting and spending such money.

Voted by a show of cards. Voted in the AFFIRMATIVE.

Article 6:

Motion: By Maurice Demeritt, duly seconded by Hughin Holt that the district raise and appropriate \$5,000.00 as a contingency fund, to meet the cost of unanticipated expenses, all in accordance with RSA 198:4-b. Further, that any surplus in this account at the close of the fiscal year be transferred to the capital reserve fund for renovation of existing buildings, etc.

Amendment: By Mr. Pitts, duly seconded by Mr. Begg, that the district raise and appropriate \$5,000.00 as a contingency fund, to meet the cost of unanticipated expenses, all in accordance with RSA 198:4-b. Further, that any surplus in this account at the close of the fiscal year be transferred to the unexpended fund to reduce taxes at the end of the year.

Voted by a show of cards. Voted in the NEGATIVE.

The Moderator then stated that the district would vote on the original Article 6 motion.

Voted by a show of cards. Voted in the AFFIRMATIVE.

Article 7:

Motion: By Maurice Demeritt, duly seconded by Kathleen Hoelzel that the school district raise and appropriate the sum of \$103,644.00 to fund the cost of items related to an increase in salaries and benefits for the 1982-83 school fiscal year; such sum of money representing the additional costs attributable to the increase in salaries and benefits over those obligations payable under the prior Collective Bargaining Agreement, this being the first year of a two-year contract.

Voted by a show of cards. Voted in the AFFIRMATIVE.

Article 8:

Motion: By Sally Paradis, duly seconded by Maurice Demeritt, that the school district raise and appropriate \$2,915,875.86 for the support of schools, for the payment of salaries and benefits for school district officials and agents other than benefits and salary increases to teachers; and for the payment of the statutory obligations of the school district.

A secret ballot was requested by the following people: Mary Larouche, Can Foucher, James Demeritt, T. Anne W. Marvel, Harriet Cady.

Voted on by a green secret yes or not ballot.

The ballot boxes were open for inspection.

The polls were declared open at 9:32 P.M.

A short recess was declared by the

Moderator while those present voted and the ballots were counted.

The polls were declared closed at 10:04 P.M.

Total Ballots Cast: 477. Yes: 268 No: 208, Blank: 1. Voted in the AFFIRMATIVE.

Article 9:

Motion: By Harriet Cady, duly seconded by Louis Dannis that the Raymond School Board will reduce the Raymond School District budget by a figure of \$600,000.00 as of July 1, 1982. An affirmative vote by ballot shall mean the Raymond School Board will reduce the aforementioned \$600,000.00.

A secret ballot was requested by the following people: Ronald Ford, Jacquelin Cole, Jim Reese, Nancy Campbell, Dennis Campbell, James Demeritt, Alfred J. Roy.

Amendment by T. Anne W. Marvel, duly seconded by James Demeritt that the Raymond School Board will reduce the Raymond School District budget by a figure of \$90,720.00 as of July 1, 1982. An affirmative vote shall mean the Raymond School Board will reduce the aforementioned \$90,720.00.

Amendment voted by a show of cards. Voted in the AFFIRMATIVE.

Hughin Holt made a statement to defeat the Amendment to Article 9.

The Moderator then stated that the district would vote on the amended Article 9 by secret ballot.

Voted on a yellow secret yes and no ballot.

The ballot boxes were open for inspection.

The polls were declared open at 11:09 P.M.

A short recess was declared by the Moderator while those present voted and the votes were counted.

The polls were declared closed at 11:31 P.M.

Total Ballots Cast: 458. Yes: 214, No: 244. 1 spoiled. The amended motion was voted in the NEGATIVE.

Article 10:

Motion: By Kathleen Hoelzel, duly seconded by Susan Newton to see if the District will raise and appropriate a sum of Six Hundred Fifty and 00/100 Dollars (\$650.00) to purchase a throat culture incubator and related materials to detect strep throat infection and prevent rheumatic and scarlet fever and body organ damage. Both purchases to permit the least costly continuance of vital child health/learning program reduced or eliminated by the State of

New Hampshire by budget cuts.

Voted by a show of cards. Voted in the AFFIRMATIVE.

Article 11:

Motion: By Hughin Holt, duly seconded by Steven Sloan that Article 11 be indefinitely postponed.

A motion was made by Kathleen Hoelzel, duly seconded by Hughin Holt, to adjourn the March 9, 1982 School District Meeting.

Voted by Voice. Voted in the AFFIRMATIVE.

The Raymond School District Meeting was adjourned at 11:47 P.M. by the Moderator.

RAYMOND SCHOOL DISTRICT ELECTIONS

March 9, 1982

The Raymond School District Elections were called to order at 10:00 A.M. in the Raymond Consolidated School Gymnasium by the Moderator, Frank G. Case. The Moderator read the school warrant.

The Pledge of Allegiance was recited by all present.

A motion was made by Mr. Gordon Cammet, duly seconded by Mr. Turner, to have the polls open from 10:00 A.M. until 7:00 P.M. All present voted by voice Aye or Nay. Voted in the AFFIRMATIVE.

BALLOT CLERKS:

Marilyn M. Bagley	Gloria Grace
Assunta J. Ege	Joan P. King
Margaret A. Case	Elizabeth A. Robinson
Pauline Gordon	Rita M. Curtis

The polls were declared open at 10:03 A.M.

The polls were declared closed at 7:03 P.M.

The Official Ballot for the Raymond School District Elections was light blue.

School Board Member for three (3) years: (Two)

Harriet E. Cady	383 votes

RAYMOND SCHOOL SUPERINTENDENT'S REPORT

The American people, since colonial times, have had an abiding faith in the power of education. While the process of educating the young was then at an informal level and primarily accomplished by the family, one could say that it was universal in the sense that virtually all were trained to make some contribution to the welfare of the family. To be sure, there were instances in which an individual was unable to engage in some effort, but in the main a contribution was made, whether it was large or small.

With the advent of the industrial revolution life suddenly became very complex. Not only did society begin to realize that the family unit could no longer provide an essential education, but as a result of the introduction of more efficient machinery and legislation designed to eliminate child labor, more and more children found their way to school. In spite of the fact that nearly everyone subscribed to the democratic principle of an education for all, its application fell short of the goal of universality. Not only did some leave school at an early age, but the scope of education was narrow in relation to the needs to be served. Those with handicaps more often than not were completely deprived of an education and even those who were able to attend school under normal conditions frequently did not participate on an equality of opportunity basis.

As the years passed and an increasing amount of social legislation was enacted, the demands on public education grew in proportion. Initially funded at the federal level there were some voluntary programs that eventually had to be underwritten at the local level or dropped. Other programs were mandated by both the federal and state governments and either were inadequately funded or imposed on the local district to implement. That the programs were

desirable and of merit was not disputed. Public concerns were expressed related to the ability of school districts to accomplish the tasks mandated. Some larger districts already had undertaken steps to provide a measure of opportunity and meeting additional requirements did not involve much more per pupil effort because of the numbers involved. Conversely, smaller districts, without the same resources as their large counterparts, suddenly found themselves in the position of having to meet new demands without additional funds.

Today, not only are districts being asked to provide facilities and services for school-age children, but legislation pertaining to the welfare of children is becoming broader and in some cases, includes provisions for preschool children. Two recent pieces of legislation, one enacted by the state and the other by the federal government, serve to illustrate this movement. It is emphasized that the merits of such legislation are not an issue in this report.

In 1965, the New Hampshire General Court took action which required every handicapped child between the ages of five and twenty-one and capable of being benefited by instruction, to attend an approved school program to which he may be assigned by the local school board. If necessary, such education was to be made available until the individual reached the age of twenty-one years. Small districts, for the most part unable to support proper programs, usually arranged to have the child attend a school, often outside of the district, which provided a specialized education. The tuition liability of the district was equivalent to the state average tuition for the previous year.

The 1973 session of the state legislature modified the original statutes that dealt with the handicapped in a number of ways, the most notable of which made all preschool children

eligible, regardless of age, at the same time requiring the state board of education to assume responsibility for tuition which exceeded the state average per pupil cost. With a statute that made it mandatory to provide some type of program for all handicapped children up to the age of twenty-one years, it seemed that finally parents and school districts would obtain relief.

Such was not the case, however, for in the same breath that the General Court enacted legislation requiring a broadening of opportunities, it failed to provide the funds for implementation. This raised a host of questions as to who was going to assume financial responsibility for costs above the state average. By law the local district could pay no more than the state average cost, but the state department of education had no money to assume responsibility for any payments in excess. In 1974, the statutes were amended to give the local school board authority to pay more than the state average tuition cost, at the same time allowing the state department of education to assume some of the tuition cost on a pro-rated basis if any funds were left over after meeting other obligations.

The net effect of this legislation is that the local districts must assume responsibility for providing an equality of educational opportunity for all children from birth to twenty-one years of age. Given the option of establishing programs within the schools or tuitioning to other schools, school boards are faced with increasing instructional costs; not only has the population to be served increased, but the cost of providing specialized curricula often is considerably higher than that of the traditional program.

Somewhat different in thrust is Title IX of the Education Amendments of 1972, which represents civil rights legislation recently enacted by Congress. While it deals with sex discrimination, of particular interest is the section which concerns the treatment of students. Many schools have in fact already met the intent of the law in some measure. One example is the requirement that no courses can be offered exclusively for girls or boys; some schools now have open enrollments and actively encourage participation of both sexes in what traditionally has been a segregated offering. While there could be additional costs related to this arrangement, the larger effect will be found in the area of athletics. It will now be the school's

responsibility to provide athletic opportunities in such sports and through such teams as will most effectively equalize opportunities for members of both sexes. Unless the program is eliminated, the effect of this legislation will be to increase the amount of money appropriated locally for athletics.

Traditionally, the state has been responsible for education. In most states much of the responsibility for actual organization and administration of schools has been delegated to the local school districts. New Hampshire residents have taken pride in their local schools over the years and have had the satisfaction of being able to determine the policies which governed their operation. More recently an increasing amount of legislation at both the state and federal levels has had the effect of reducing the extent of control which the community has been able to exercise over its educational program. If one examines educational legislation over the years, there can be no question but that much has been enacted as a result of what some group perceived as a need. Of concern, as expressed by not a few, is that the capacity of local districts is such that it is becoming increasingly difficult to adequately support all programs that are desirable as well as legislated.

Perhaps the most significant development in Raymond relative to instruction this year has been the organization of the sixth, seventh and eighth grades into a middle school housed in the secondary facility. Much excellent planning went into this endeavor and everyone involved should be commended for their efforts.

The expansion of the enrichment program for gifted and talented youngsters has been expanded and refined this year. We currently have resource people at each school who are doing an excellent job.

Another area that has seen significant expansion is that of computer education. Grades one through twelve: emphasis has been placed on familiarity with the computer, computer literacy, computer assisted instruction and programming.

Space limitations for our instructional program have become particularly obvious over the past year. The industrial arts areas have been judged highly inadequate by the State Department of Education. The current percentage of utilization at the Raymond Junior/Senior High School has determined to

be in excess of 95% (80% utilization is the average). Programs for the educationally handicapped students have been found by an outside consultant as well as inhouse professionals to be inadequate.

The Staff Development Plan has been revised to cover the period of 1982 through 1987. We are particularly happy with the new plan, finding it more comprehensive, understandable, easy to administer than either of the two previous plans.

The competency testing program has continued at the elementary, junior high school and high school level.

The 1981-82 academic year marked a greater effort to coordinate and consolidate the buying power of the four SAU #15 school districts. As a result of this consolidation, the Raymond School District was able to realize substantial savings in such areas as art, office and scholar supplies; bakery and dairy products; microcomputer hardware, school furniture and equipment; gasoline and heating oil. Plans are underway to refine this process in 1982-83, and to extend it to include athletic, audio-visual and custodial supplies and equipment.

During the summer of 1981, three failed roofs were replaced at Raymond Junior/Senior High School; the cafeteria, the 300 wing and the gymnasium. At a cost of approximately \$86,000 the new roofs are single membrane systems that carry a ten year manufacturer's warranty. Moreover, the cafeteria and 100 wing roofs include increased insulation for greater energy savings.

More energy savings are already being realized from three other projects undertaken during 1981-82. The Lamprey River Elementary School, which is electrically heated, has been rezoned and is now controlled by an Optimal Start Electronic Programmer. This system has decreased the school's electricity consumption

by nearly one-third, saving the district \$20,000: more than double the cost of the project.

Energy savings should also continue to accrue from the replacement of north facing window walls in the 200 wing with insulated walls, and from the installation of a separate oil-fired hot water heater for the gymnasium.

Students who are physically, intellectually or emotionally disabled require specialized programs in order to benefit from school and become productive citizens. The Raymond School District continues to meet its responsibility toward these students in the most cost-effective way possible.

The 1981-83 school year saw the development of programs for handicapped youngsters of preschool age. No longer will our youngest special needs students have to travel to Manchester at great expense to find suitable educational services. Early intervention such as provided means that these students will be able to function much more normally upon entering first grade, and some may not continue to need special help at all.

Although the vast majority of Raymond educationally handicapped students are able to receive the services they require in our own local programs, Raymond still has a few students whose needs are so great that they must be assigned to out-of-district programs.

Raymond students regularly attend the Easter Seal School, Great Bay School and Training Center, and classes sponsored by the Manchester, Derry and Portsmouth School Districts.

Transportation costs are typically high so the Raymond School District participates in a shared bus-routing plan with other S.A.U. #15 Districts to keep the costs as low as possible.

REPORT OF SCHOOL BOARD CHAIRPERSON

The 1981-82 school year was transitional in administration with Don Beaudette becoming Assistant Superintendent for Business, Ed Donovan replacing Dick Thompson as Assistant Superintendent for Instruction and Lucille DiCicco replacing Ed Donovan as Principal of the Lamprey River Elementary School. Although this was a difficult period of time, Junior/Senior High School Principal, Joseph Korowski, Assistant Principal Peter Fogle and veteran Elementary School Assistant Principal Rod Crepeau provided continuity to administration. Superintendent Dave Cawley was faced with this while at the same time there were changes in other school districts in S.A.U. #15. We are fortunate to have been able to continue our extensive efforts in program development, building maintenance, etc. This is due to the efforts of all of our administrators and staff.

A very special thank you goes to Carol Davis for the way in which she implements her difficult role as Director of Special Services at S.A.U. #15. Carol has to serve and meet the expectations of special students and their parents, teachers, building administrators, federal and state project requirements, the Superintendent and State Department of Education officials. She also must carry messages to sixteen school board members in

S.A.U. #15 that often means more responsibility, work and cost for schools. State-wide, Carol is regarded as one of the best professionals in her field. Those persons in Raymond and other districts who respond to her commitment get our respect.

Although school board members receive an annual salary, the number of hours spent on committee work, research and acting on input from the community is not financially compensated. However, the Raymond School Board takes pride in the fact that each and every hour of hard work may help to develop another productive adult. This is our greatest compensation. I suspect we step on toes at times but feel that on the whole there is a real team effort. Without the support of community, parents, students, teaching and support staff and administration, this team effort could not exist. Therefore, the Raymond School Board greatly appreciates the input and support of all.

My deepest thanks goes to my loyal fellow school board members for their diversity of opinion and experience which each brings to the board but especially for the way they work together.

Kathleen Hoelzel, Chairperson
Raymond School Board

PRINCIPAL'S TOWN REPORT
Joseph T. Korowski, Principal
Raymond Junior-Senior High School

I would like to initiate this year's report with some degree of rationale as to why many schools are currently going through change which is especially evident in Raymond.

Frankly, a school is simply an institution that shares a place in society with all of the other institutions that make up our culture. I think we would all agree that these bodies, including; families, religious organizations, clubs and schools cannot experience any extreme modification without having some effect on the other organizations in the cluster. It is often said that, "schools ought to be the way they used to be." This concept could probably be reached providing that other related institutions maintained their previous structure. Considering the decline of church membership, the increase in single-parent homes, and the decline of interest in club membership, it would be unreasonable, as well as impractical, for our educational system to try to function outside of a "sweeping, irreversible cultural revolution which is transforming the rules that once guided American life."¹

Raymond is certainly not immune to these changes and this has necessitated constant growth and re-evaluation of our school programming for grades 6-12. Our middle school program was designed to deal not only with the necessary, basic education that is expected by society in general but also to address the development of early adolescent students in our community. Middle school teachers meet on a daily basis as a group to plan instruction and activities for these students and to address concepts such as student readiness to learn, attitudes about learning, motivation, and personal safety needs of these young people. We run intramural athletic programs in lieu of interscholastic sports. Students are allowed to participate in sports and other activities because of their interests. Success and acceptance seem to be easier to deal with for early adolescents instead of failure. Our Guidance Department, along with the staff, runs an "interchange" program in which the students deal with the everyday conflicts that occur in their educational experience and actually confront major problem solving such as how to get along with peers and teachers as well as dealing with parental pressures regarding grade

expectations. We have also found that it is important to establish a realistic dialogue regarding drugs and alcohol with students of this age level. A 1980 national survey indicated that in the year 1930 the average father spent two and one-half hours per day with his child. The 1980 statistics indicated an average of twelve minutes per day. It is obvious that this is only an average and that some parents exceed the 1930 figure; however, it is reasonable to conclude that there are some parents who fall short of the twelve minutes in 1980. We feel that the middle school has a valuable role in developmental education, yet it is still fairly new to all of us, and we are constantly finding areas where we need to improve.

Our middle school parent CORE group, which serves in a direct advisory capacity to the school administration as well as a support group to the program, has been especially helpful in bringing community concerns about the school processes to our attention. The members of this group are a good representation of Raymond's commitment to educational growth.

We are beginning to make some modification in the secondary program (9-12) at the school by addressing the needs for our older students to maintain and build levels of basic skills that are almost prerequisites to survival in our society. Our language arts program has seen some meaningful improvements in our Accountability test scores at the secondary level. We are clearly working to complement this growth by upgrading our math curriculum with subsequent instructional improvements. I would like to take this opportunity to solicit as much help as possible from parents in establishing and enforcing some firm rules for not taking an accusatory position regarding the need for students to pursue their education at home as well as in school; however, I am suggesting that we form a strong partnership by insisting that our students who attend the secondary program at Raymond do the best job possible with the little time they have allotted in their lives for educational growth. I am sure that we will not always be successful, but with a cooperative venture, we could realize sub-

stantial improvements in student achievement.

Naturally, we have some outstanding pupils who have truly excelled on an individual basis throughout the past school year. As I stated previously, we have experienced some solid increases in Accountability scores and this has been complemented by some outstanding individual college aptitude results.

Another area of student strength that has been especially evident this year is responsible student government. The student council is beginning to take a more active and vocal role regarding the social aspects of the institution. They sponsor concerts, a spirit week, and meet regularly with the school administration. You may have noticed their attendance at school board meetings. They actively represent a new emphasis on student commitment for the 1980's. This involvement has also been evidenced by the class officers of the school, especially with our seniors who began planning their end-of-the-year activities at the beginning of the school year with a great deal of emphasis on fund-raising and high expectations of commitment by individual students. It appears that their graduation will be very meaningful to them when they reflect upon their hard work and excellent leadership.

We seem to have adjusted to the strong emphasis on sportsmanship in our athletic programs for the past few years. I am especially proud of the fact that coaches and officials throughout southern New Hampshire are continually citing Raymond as a school to be emulated by others for individual athletic commitment to fair play with high regard for their competitors. This refreshing image exemplifies the hard work of many coaches and athletes which is complemented by the support of parents.

Other co-curricular activities have also experienced recent marked growth and recognition. Consider the school newspaper which is currently published as a portion of the Raymond Times. It is difficult for many schools to get a newspaper out on a quarterly basis. Imagine the hard work and expertise exhibited by our students and staff by meeting the weekly news deadline for the town newspaper.

Another area that should be mentioned is the reduction of vandalism problems at the school through security measures as well as a continued emphasis on discipline.

Our realignment of the programs from a

management standpoint was effectively implemented this year through reducing the number of persons as department heads and consolidating the secondary, middle school, unified arts and support service programs under four coordinators who not only participate in the teaching aspects of the school but take an active role in evaluating staff and programs.

One area of concern that I mentioned in last year's report was our increasing student enrollment. We are at a point in the building that we can no longer even consider expanding our curriculum to include new course offerings or to open additional sections of our current programs. Mr. Fogle, our assistant principal, did an extensive study of our building utilization which indicated a 94.5% room utilization, and it is obviously time to take the painful step of realizing our current building structure is not conducive to higher enrollments or to broadening programs. This has been especially evident in our industrial arts program where we are trying to attain approval for state funding but continue to fall short because of our space and program limitations. We have developed a five-year growth plan for this department which is currently being reviewed and considered for approval by the school board. We are hoping that this plan, along with the recommendations from a private study done by the Center For Educational Field Services in Durham, New Hampshire, will provide us with some direction for needed growth. The CEFS study also contains some recommendations pertaining to building additions that could help us address our growth needs without pursuing a separate building project. Ironically, Raymond is one of the few communities in New England that is experiencing increased student population.

In conclusion, I have enjoyed this opportunity to share with you our mutual endeavors and partnership especially as they apply to the educational future of Raymond in the 1980's. The school board has provided significant encouragement and direction, and along with the members of the educational community, we continue to deal with the difficult, yet rewarding, challenge of school improvement.

It has been suggested by Daniel Yankelovich, one of the most prominent social psychologists of our day, that, "American culture is evolving toward a new ethic of commitment."² We are looking forward to an even stronger partnership between the school and family as we strive toward this commitment.

⁹¹, ²⁰ Daniel Yankelovich, *Psychology Today*, "New Rules in American Life," 1981

1981-1982 ELEMENTARY SCHOOL REPORT

The 1981-82 school year began on September 1, 1981, opening with an enrollment of 552 students in grades pre-school - 5 and closing in June with a total of 540 students.

As most of you are aware, I replaced Mr. Edward Donovan in the capacity of principal at Lamprey River Elementary School in December, 1981. I was greatly impressed with the professionalism and dedication of the staff, as well as the overall behavior of the students. In addition, the contributions by the PTO and Volunteer Program enhanced the quality of many programs.

A variety of distinctive programs added much support to the general instruction. The Raymond Enrichment Program was modified from an after-school course to a structured part of the daily schedule. These students derived much benefit from such subjects as Computer Literacy, Junior Great Books, and special topics, and projects. Special services programs including remedial reading, learning disabilities, occupational therapy, Title I, resource room, preschool program and guidance also contributed to the total educational plans of students.

Two types of testing occurred at the elementary level: Accountability Testing (grade 4) and Achievement Testing (grades 2-5). To date the Accountability results have not come

in; however, the Stanford Achievements have indicated sound academic results.

The continued practice of Friday's Awards Assemblies has offered very positive input for children and staff. In addition to these, educational and cultural assemblies, presentations and classroom trips were extended to the children.

The staff, administration and community members had a fruitful year with curricula studies. The elementary curricula program ran smoothly and efficiently. An on-going review will occur each year with the flexibility of program modification if needed.

Through the time and efforts of staff members, many elementary school students participated in chorus, band, instrumental lessons and intramural athletic programs.

The success of students and program development at LRES can be attributed to the joint efforts of parents, teachers and students. Collectively, we have attained high standards and strong professionalism resulting in learning, understanding and maturity. The quality of our educational system and community is to be admired.

Respectfully submitted,

Lucille B. DiCicco
Principal

RAYMOND STAFF DEVELOPMENT COMMITTEE

The school year of 1982-83 has been a very successful and productive year. Our Staff Development master plan passed the State Department of Education requirements. When we received notification of our Master Plan, we then presented it to the teachers at their opening workshop in September.

As we have done in the past, a survey was sent to all staff members to find out types of workshops they would like the Staff Development Committee to sponsor. When the committee met to study the surveys, we felt this year we would sponsor one or two workshops

and make them more meaningful than five or six short ones.

The school board had requested a Sex Equity workshop. This was presented in the fall and was very successful. During the next month we will be having a workshop on Time Management.

A thank you goes to everyone in town for the support given to Staff Development. With this support teachers can serve the students better.

Respectfully submitted,
Sandra Ellis, Chairman

**SCHOOL NURSE
RAYMOND JR./SR. HIGH SCHOOL**

This has been a busy year. Height, weight, vision and hearing examinations were given to 632 students before January 1, 1982. All transfer students are tested as they come into our school.

First aid was rendered to approximately 360 students, this does not include faculty. Sports examinations were done on 200 students, this included a blood pressure check, and a visit with the school doctor.

A big step was taken when on May 20, 1982 the Raymond School Board passed a definite immunization policy. This policy states “at, or prior to the time of school entry, each child shall present a written evidence of immunizations or a medical or religious exemption.”

DPT - 4 separate dates - every 10 yrs.
booster needed.

POLIO - 4 separate dates

MEASLES - 1 after 12 months of age

RUBELLA - 1 after 12 months of age

MUMPS - 1 after 12 months of age

In our school, this would apply to all transfer students. We had 88 last year. This should be a

great help keeping these records up-to-date.

It would be greatly appreciated if all parents would write a note or call the school nurse's office when immunizations have been updated during the year.

During this year, we will be starting a throat culture program. The equipment will be housed at Lamprey River School since strep throat usually occurs at that level more often. The reasons for having a throat culture would be: (1) temperature with a sore throat, (2) sore throat more than two days, (3) swollen glands, (4) white patches in back of throat. These will be done at the discretion of the school nurse.

Again this year, some of our students participated in the pre-school hearing-vision screening program conducted by the Bureau of Maternal & Child Health under the direction of Evelyn Bechtel, R.N., director. This took place at Lamprey River School. We also received a letter commending our students for their ability and professionalism.

Respectfully Submitted,
Sandra Appleton, School Nurse

LAMPREY RIVER ELEMENTARY SCHOOL

Nurse Report

1. Preschool registration of 78 four- and five-year-old children for vision and hearing problems were screened with the aid of the New Hampshire Division of Public Health in March, 1982.
2. Heights, weights, vision, hearing, and impedance were done on students grades 1-5.
3. First aid was rendered to students and staff.

The Raymond Lions Club has generously purchased a combination pure tone ear tester and impedance machine for the school's use. This enables the school to detect students whose ears are not functioning properly. Early detection for ear difficulty often prevents permanent hearing losses. All students have been tested with this machine during the year. Parents have been notified if their child did not pass.

The high school nurse, Sandra Appleton, and I have presented to the Raymond School Board an immunization program for the Raymond schools. This requires that all incoming first graders will have had their physicals and all immunizations are up-to-date. Any students transferring into Raymond will not be allowed in school without first presenting a list of immunizations that is up-to-date.

The fluoride mouth rinse program has again been offered this year, sponsored by the Bureau of Dental Public Health, New Hampshire Division of Public Health. This free program includes a dental hygienist, examining the children, a film, and lecture, a weekly fluoride rinse, and daily tooth brushing throughout the year. The Dental hygienist returns to re-examine the children in the spring.

Respectfully submitted,

Charlyne Allard, R.N.
Lamprey River Elementary School Nurse

LUNCH PROGRAM REPORT

Susan Marangelli, Director

The lunch program for the 1982-1983 school year began with the introduction of a new salad bar at the junior-senior high school cafeteria in Raymond. It took off like a rocket and sparked student lunch participation to a new high. Its popularity continues to grow. At the high school this year we are providing lunch for 400-460 persons per day from an enrollment of over 700. Our elementary school lunch program serves 380-410 persons per day out of an enrollment of over 500.

We are always looking for new and interesting ways to improve our meals and boost participation.

Our lunch program became well known throughout the state during National School Lunch week in October. We had visiting guests from state offices, including representatives from the governor's office and from the state representative's office. Positive press coverage was extensive when we were featured in articles in The Raymond Times and the Manchester Sunday Union Leader, complete with photos of our staff and students. The state office has

video-taped the Raymond Lunch Program as an example to other schools to show how to initiate student involvement in lunch programs. Both the high schools and Lamprey River Elementary School are featured on this film. Our program was not only praised by the state director for the quality and low prices for our meals, but the staff was also commended on the pride they have shown in their program. At this time we are trying to establish a Youth Advisory Council at the junior-senior high school level. Recently we began to offer nutrition lessons on the reverse of our menu at the elementary school level which has been well received by faculty and students. Future plans for the elementary school includes a salad bar and a choice on main dishes. Offer "us" service is doing well at both schools and plate waste is down 70 percent or more. We are always looking for ways to improve our program and positive changes are always welcome in food service.

The staff is proud to be part of their Raymond School District Lunch Program.

REPORT OF GOVERNMENTAL LIAISON

Town and school district government is closest to the citizen and voter. If not most responsive, it is certainly that level which is most readily contacted in tough economic times and scapegoated when things don't go right.

It never was appropriate that local elected officials should sit back on their heels and wait passively to hear what had happened in Washington and Concord which would largely proscribe the future of the locality.

If the states accept the new federalism, which shifts to the state the authority for certain programs which were formerly federally funded, the state of New Hampshire had better be prepared to raise some new money at the state level and not attempt to balance its budget on the backs of local property taxpayers. In the past two years the State of New Hampshire has repeatedly reneged on its funding commitments to its cities, towns and school districts. Most recently sweepstakes aid, 'sold' to the people as support to education, has been directed to state general funds. Building aid and Vocational Education aid are short-funded as well.

Our new Governor has indicated his support

to the full funding of educational 'foundation aid' which is intended to provide money to the property-poor school districts to more nearly equalize (increase) educational opportunity for its children and equalize (reduce) the property tax burden of its citizens. To do this is the constitutional responsibility of the state and is what the lawsuit against the state, to which Raymond is a party, is all about. The Governor's stated position if implemented through legislation might go a long way to obviate the need for legal action. It is essential that official town and school positions be 'heard' in Concord and that citizens at large let the governor, senator, legislators and other elected and appointed officials know that they support the positions of local officials when they do and what their own position is if it differs.

I will make the School Board, parents and citizens aware when I become aware of state or national issues which may directly affect education in the hope that local positions may be communicated to Concord or Washington.

Hughin Holt

REPORT FROM PROPERTY SERVICES COMMITTEE

Learning is what education is all about and motivating the student through creative instruction and family support is the means. That is the ancient 'student and teacher on the ends of the log' analogy. Education would certainly be less costly and probably less complicated if that is all that was involved. There is still need for the 'log' however, and in a practical sense that translates into buildings, grounds and furnishings.

For many years, our budgeting levels for property services could not even be considered as 'second priority,' at best it was at a survival level. There was no long-range plan for renovation nor little regular maintenance beyond cleaning and essential repair. We were short staffed and the age of some physical plants and the cheaper quality of much of the newer construction preoccupied them. There was virtually no grounds development and little maintenance.

A few years ago we began to turn it around.

The federally subsidized energy project and related renovations have produced savings beyond expectations and permitted us to divert some money into other renovations and development as well as to allow us to constrain

the energy account increases (electricity, fuel oil, and gasoline) to levels less than the unit increase in prices. More recently some budget decreases in these accounts have been possible.

Initiative in grounds development began with the outdoors recreation area collaboration of school and town. Students and staff implemented efforts to reduce vandalism; savings were plowed back into better furnishings. A greater pride seems to have evolved.

The leadership of Assistant Superintendent, Don Beaudette, the good working relationship between Rick Bates of the Recreation Department and Ron Howe, Maintenance Supervisor, the efforts of custodial and other non-certified staff, the attention of the old Energy Committee and help of constructively concerned citizens is appreciated.

We are not up to expectations yet, but are working on it. We should never again make the mistake of letting things slide. The short-term gain in dollar savings is not worth the long-term effect: costs in dollars, loss of pride and motivation in instruction and learning.

Hugh Holt, for the Committee

YEAR END REVIEW OF THE VOLUNTEER PROGRAM

As the first year of the Raymond School District Community Volunteer Program comes to an end, I wish to review successes and problems encountered this first year and outline new goals for the 1982-83 school year.

First, a look at the successes. I believe a solid groundwork of public relations and communicating with the community has been established. All clubs, organizations and groups have been made aware of the program and its philosophies. Perhaps the 1982-83 school year will produce positive results from this public relations work.

A good beginning has been established for a Middle School parent group. Parents will be organizing a group over the summer so they may be ready to work with teachers and administrators early in the school year. Public interest in the Middle School concept appears positive at this time.

Volunteers spent many hours logging and mailing forms for the Olympathon project early in May. This saved secretarial hours (tax dollars) and involved a number of community people over a 2-3 week span.

Two issues of the high school newspaper, *The Ramcaster*, "hit the hallways" funded with volunteer grant funds and some student effort with advertising revenue. This project was successful due to a lot of student interest, teacher dedication and volunteer effort. The *Bullfrog*, no less a literary giant, was the elementary school's contribution to student journalism, also the result of dedicated volunteer effort and student interest. Although this endeavor was independent of our program projects, it was a positive volunteer effort in the interest of the school system.

The Oral History project produced interesting classroom presentation by local historian Arthur Severance. Unfortunately, this project was not as in depth as anticipated, but groundwork for another year has been established. A compiled list of community resource people promises a richer oral history project for next year, ready to implement early in the fall.

Classroom volunteers aided teachers at the elementary and middle school levels. During the high school media center inventory this past winter, a volunteer provided additional help for librarian Ed Daniels. A volunteer at the elementary school level provided needed help with a recent magazine drive.

Volunteers came forward to help with gifted and talented enrichment program, to present

special projects including a photography workshop and a session on aviation.

Like most new programs, there were problems. Key people are needed to head various projects to ensure smoother coordination of volunteers, teachers and scheduling. More follow-up on volunteer time and teacher needs will ensure a smoother operation all year. Training sessions between teachers and volunteers, as well as workshops for volunteers will provide a better trained and prepared volunteer-teacher team. Get acquainted time should be provided between volunteers and teachers.

A central baby-sitting service looks like a prime consideration to help young mothers (and fathers) who may be interested in volunteering.

Field trips to other volunteer programs should be provided for a broader view of how other school systems serve their volunteer needs.

Final tally for the 1981-82 school year:

50 volunteers gave over 1,500 hours to the Raymond School District (This figure may be low as all volunteer time was not tallied).

If this figure was transposed into minimum wage dollars, volunteers saved Raymond taxpayers \$5,025. This actually paid for the grant, plus an additional \$2,000 was saved. To date, the program has proved fiscally profitable and self-supporting when time and effort is translated to wage dollars.

Many more volunteers are needed.

All in all, it has been a learning year, one of trial and error, but one with a fair share of successful projects, making the 1982-83 goals exciting and worth pursuing.

Finally, no program review can be complete without a comment on the people who made it work.

The volunteers who came forward, although the numbers were small, were dedicated workers and most left the schools with a more positive attitude and a better understanding of the educational system. The dedicated cooperation and understanding of the faculty and administrators were key factors in getting this program off to a positive start this first year.

As I wind up the school year, tying up loose ends and securing the goals for the 1982-83 school year, I can only add a hearty thank you to those who worked side by side with me and made it all happen.

Sincerely,
Diana Dawes

CURRICULUM COUNCIL REPORT 1981-82

This report will be divided into three main sections, each corresponding to one of the Curriculum Council's major activities: (1) Review of existing curriculum; (2) Action taken on proposed curriculum change; (3) Other matters relating to curriculum.

CURRICULUM REVIEW

Elementary School

The council examined the Enrichment Program as it related to grades 1-5 at the Lamprey River Elementary School. Brenda Thomas, the director of this program, made the presentation.

Pat Deschamps presented the criteria for determining learning disabled children at the elementary level. An overview of the program was also heard at this time.

The science curriculum for grades R-5 was presented by Mary Gingras to the council. The council recommended to accept the updating in this area.

Lucille DiCicco and Sue Lassins reviewed the math curriculum for grades R-5 as it pertains to the Lamprey River Elementary School. The council recommended to accept the updating in this area.

High School

Business department courses were reviewed and recommendations were made on improving enrollments in this area. A closer alliance with the program at Region 18 is being researched.

Shirley Gould and Sandra Frisch of the high school science department presented the existing curriculum in grades 9-12.

The math curriculum was presented along with all new texts that are being used in grades 7 through 12.

The committee also reviewed the existing course overlap that occurs within the various departments at the high school. Teachers and committee members reported on this area.

PROPOSED CURRICULUM CHANGE

High School

Two computer courses were recommended for adoption by the committee. The first is a full year programming course for 1 credit. The second a half-year course for ½ credit.

Raymond High School was selected to "field test" a course, entitled *Adult Roles and Functions*, for the state. The committee recommended this action on a one-year basis.

Charlotte Mason, the Unified Arts Coordinator, presented a 5-year overview of the proposed new comprehensive shop program for the high school. The council recommended this program be adopted and continual updates be given to the committee.

OTHER MATTERS RELATING TO CURRICULUM

The council held its November meeting at the Region 18 Vocational School in Exeter. A presentation on the various courses of study was made, followed by a tour of the facilities.

A discussion on communications between the elementary, middle and secondary programs led to the development of a transition committee consisting of teachers and administrators from the various levels. Curriculum henceforth will be developed in the following sequence: grades R-4, 5-8, and 9-12 with input from the different levels involved.

C.M. Fogle, Jr.

603 225-6996

To the Members
of the School Board
Raymond School District
Raymond, New Hampshire

We have examined the combined financial statements and the combining fund and account group financial statements of the Raymond School District as of and for the fiscal year ended June 30, 1982, as listed in the foregoing table of contents. Our examination was made in accordance with generally accepted auditing standards and accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

As described in Note 1B, the combined financial statements referred to above do not include financial statements of the General Fixed Asset Group of Accounts, which should be included to conform with generally accepted accounting principles.

In our opinion, except that omission of the General Fixed Asset Group of Accounts results in an incomplete presentation as explained in the above paragraph, the combined financial statements and the combining fund and account group financial statements referred to above present fairly the financial position of the Raymond School District at June 30, 1982, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole and on the combining fund and account group financial statements. The accompanying financial information listed as supplemental schedules in the table of contents is presented for purposes of additional analysis and is not a required part of the combined financial statements of the Raymond School District. The information has been subjected to the auditing procedures applied in the examination of the combined, combining fund and account group financial statements and, in our opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.

September 9, 1982

Killion, Plodzik & Sanderson

The remainder of the entire Raymond School District audit may be reviewed by the public at either Raymond School or at the Raymond Town Library.

**RAYMOND SCHOOL DISTRICT
WARRANT 1983**

TO THE INHABITANTS OF THE SCHOOL
DISTRICT, IN THE TOWN OF RAYMOND,
NEW HAMPSHIRE, QUALIFIED TO VOTE IN
DISTRICT AFFAIRS:

You are hereby notified to meet at the
Raymond High School, in said District, on the
8th day of March, 1983 at Ten O'clock in the
morning, to act upon the following subject:

To choose School District Officers for the
ensuing year.

POLLS WILL BE OPEN FROM 10:00 A.M. to
7:00 P.M.

SCHOOL BOARD OF
RAYMOND, NEW HAMPSHIRE
Kathleen M. Hoelzel, Chairperson
Maurice E. Demeritt, Jr.
Sandra L. Ellis
Hughin D. Holt
Susan H. Newton

**RAYMOND SCHOOL DISTRICT
WARRANT
STATE OF NEW HAMPSHIRE**

TO THE INHABITANTS OF THE SCHOOL DISTRICT, IN THE TOWN OF RAYMOND, NEW HAMPSHIRE QUALIFIED TO VOTE IN DISTRICT AFFAIRS:

You are hereby notified to meet at the Community Gymnasium in said District, on the fifth day of March, 1983, at seven o'clock in the evening to act upon the following articles:

1. To hear the report of auditors and pass any vote relating thereto.

2. To see if the District will vote to authorize the School Board to apply for, accept and expend, without further action by the School District Meeting, money from the State, Federal or other governmental unit or a private source which becomes available during the 1983-84 school fiscal year provided that such expenditure be made for the purposes for which a School District may appropriate money and that such expenditure not require the expenditure of other School District funds. Further, that the School Board hold a public hearing prior to accepting and spending such money.

3. To see if the District will vote to accept and expend funds in the amounts set forth below which may be made available to the District through the following Federal programs:

ECIA Block Grants	\$5,000.00
Energy Conservation Grants	2,500.00
Miscellaneous	2,500.00

(The amounts of money set forth above for each program are estimated and the amount appropriated for any one program may be over-expended so long as the total amount for all of the above programs does not exceed Ten Thousand and 00/100 (\$10,000.00) Dollars.) (recommended)

4. To choose one Raymond voter to serve as a member of the Raymond School District Staff Development Committee for two years.

5. To see if the District will vote to confirm the expenditure of Nine Thousand Dollars (\$9,000.00) for fences, backstops, etc., as part of the Land and Water Conservation Fund Project at the Raymond Recreation Area (formerly called the Bureau of Outdoor Recreation Project), and to appropriate Fifteen Thousand Dollars (\$15,000.00) from the Student Olympathon Fund to make additional improve-

ments in the Raymond Recreation Area, and to authorize the Raymond School Board to apply for, receive and expend Twenty-Four Thousand Dollars (\$24,000.00) in matching federal funds for the project. (recommended)

6. To see if the District will vote to raise and appropriate the sum of Seventy-Nine Thousand Dollars (\$79,000.00) for the purchase of the Harris property adjacent to the Raymond Middle/High School and, furthermore, to direct the Raymond School Board to apply for and accept State School Building Aid in the amount of 30% of the purchase price of this property. (submitted without recommendation)

7. To see if the District will vote to raise and appropriate Five Thousand and 00/100 (5,000.00) Dollars as a contingency fund, to meet the cost of unanticipated expenses, all in accordance with RSA 198:4-b. Further, that any surplus in this account at the close of the fiscal year be transferred to the Capital Reserve Fund for renovation of existing buildings, etc. (recommended)

8. To see if the School District will vote to raise and appropriate the sum of One Hundred One Thousand, Seven Hundred Forty-Nine Dollars (\$101,749.00) to fund the cost items related to an increase in teachers' salaries and benefits attributable to the latest Collective Bargaining Agreement entered into by the School Board and the Raymond Teachers Organization for the fiscal year 1983-84, such sum of money representing the additional costs attributable to the increase in salaries and benefits over those obligations payable under the first year of the Collective Bargaining Agreement. (This is the second year of a two-year contract.) (recommended)

9. To see what sum of money the District will vote to raise and appropriate for the support of schools, for the payment of salaries and benefits for school district officials and agents other than benefit and salary increases to teachers; and, for the payment of the statutory obligations of the District.

10. To see if the School District will vote to raise and appropriate the sum of Two Thousand Five-Hundred Dollars (\$2,500.00) to help purchase an Environmental Playground. (By Petition.) (recommended)

11. By vote of the following the Raymond School Board will reduce the Raymond School District Budget by ten (10%) percent as of July 1, 1983. An affirmative vote by ballot shall mean the Raymond School Board will reduce the aforementioned ten (10%) percent. (By Petition.)

12. That the Raymond School Board will spend within the limits of each and every line item as they budgeted the monies each year. (By Petition.)

13. We the undersigned legally registered voters in the town of Raymond petition the Raymond School Board to submit to the voters at the annual school district meeting any and all raises that the Raymond School Board shall receive. (By Petition.)

14. To direct the Raymond School Board to take all necessary steps with the New

Hampshire State Board of Education and the State Legislature to withdraw the Raymond School District from School Administrative Unit #15 and to establish our School District as a separate School Administrative Unit. (By Petition.)

To transact any other business that may legally come before this meeting.

GIVEN UNDER OUR HANDS AND SEAL
THIS DAY OF FEBRUARY, 1983.

SCHOOL BOARD OF
RAYMOND, NEW HAMPSHIRE
Kathleen M. Hoelzel, Chairperson
Maurice E. Demeritt, Jr.
Sandra L. Ellis
